

CASE STUDY

Anfield Pharmacy, Merseyside

Director: Mohammad Amir Yasin

12.01.2015

Our cash machine was installed about six years ago. We chose a Through-The-Wall ATM from Cashzone. They offered me the **best commercial deal**.

Increased footfall and revenue

In the first 3 years, the ATM has increased footfall into the business and generated decent revenue. The money made from the machine is profit which is desirable in any business.

Cashzone are competitive in the market

I think the customer service that Cashzone provide and the general service from the commercial team and the engineers is good. Any issues with the machine are resolved quickly and professionally. Purely from a revenue point of view, I would say Cashzone are very competitive in the marketplace.

No time or effort on my part

Everything was handled for me, by Cashzone. Everything from installation, to management, to filling and re-filling the machine. It requires no time or effort on my part and it is not very often you get something for free.

Overall I think Cashzone are a very professional company and I would recommend to others.
